Title:

Comments:

My name is Laura Vetsch and I am a lifelong resident of Idaho.

I object to the Stibnite Gold Project as proposed by Perpetua Resources Idaho, Inc. in the Payette National Forest.

Idaho is full of resources that continue to get withdrawn, leaving the land far worse than it was found. The lasting impacts of these projects negativity outweighs the money/resources gained. Specifically when the primary benefits go to very few, while the residents of the state have to deal with all the negative impacts for generations to come.

Time and time again we see states like Idaho taken advantage of for their natural resources, and we see the negative impacts scarring the land once the resources are taken. I do not want to see such a pristine location in Idaho ruined by the greed of others.
