Comments: I am so excited to hear we might be getting some mountain bike trails in the Bluewood area. This is such a beautiful area, and could be so much more utilized by people in the summer. I think mountain bike and hiking trails would be a great draw to people and bring vacationers and locals up to the mountain to enjoy all the fun and beauty it has to offer. There is such great opportunity there, I'm jacked to hear it will hopefully finally be utilized. YAY
