Comments: Please do not rebuild the Emerald Lake Shelter. It's time for humans to return some of what we've interfered with back to Nature and allow wild places to be wild without interference by humans with machinery, noise, pollution and presence. Wild places and spaces deserve time to recover from our destructive tendencies, however well intentioned we may think we are being. Just leave it alone and let it be. Time will take care of it, I promise.

Thank You.
