Last name: Marquardt

Organization:

Title:

Comments: Is this wilderness or not?! Your own policy has language to directly deal with this situation, without the helicopters, cement trucks and other decidedly non-wilderness components this "reconstruction" would require. Please reconsider this action, for as well-meaning as it is, it is definitely not a project suitable for a true wilderness area. I am a lover of, decades-long visitor to and supporter of wilderness: thanks for listening.
