Comments: These are great ideas put together in a thoughtful way. I was a long time ski industry employee. I have worked as a groomer (Alta Ski Area UT) and ski lift mechanic (Sun Valley ID) among other small jobs in ski towns. As a family man living in Walla Walla and wanting my family to grow up with the opportunities that I had growing up. These improvements are essential for Bluewoods survival as a community ski and recreation area. You have my full support moving forward! Thank you for your time
