Title:

Comments: This "wilderness" area should remain just that and in order to be a true wilderness area there should be NO HELICOPTERS, MOTORIZED ANYTHING, Brought into this "WILDERNESS" or the land here will become anything but a true wilderness!! Mankind has been destroying wilderness areas for far too long and because of that we have also lost habitats for wildlife, destroyed ecosystems that have been in place for what seems like forever. And we don't want to see another land grab by those who do not care or realize the harm they are causing by treating this like just another piece of land that should be opened up to those whose ideas are NOTHING about preserving wilderness here. Our earth is struggling badly with climate change and just maybe if we protect what true wilderness areas we have left maybe this can make a difference for our future. I think it's worth it and hope you do too.
