Comments: The proposal is not in line with Timpanogos's wilderness designation. I have hiked that trail for years and every time, I remark at how out of place this hut is on the trail. It does not need reconstruction - it needs to simply fade over time OR be removed if that can be done in a non invasive way. It detracts from the wilderness, and the upper meadows on Timp are some of the most beautiful views Utah offers. Allow it to remain wild and undeveloped.
