Comments: Trees should NOT be cut down! Allow our forests to thrive for the betterment of ALL Americans, not just a handful of corporations. Our children, parents, grandparents and every animal deserves a livable, breathable world to enjoy and cutting down aged lumber is NOT the answer. If these companies cannot source their supply otherwise, they have NO business sourcing it from here. If you are reading this, always stay with your community. Corporations are NOT communities. They are illusions of togetherness made to manipulate you into volunteering your labor. DO NOT ALLOW CORPORATIONS OR CONTROL OUR LIVES!
