First name: Allison

Last name: Craig

Organization:

Title:

Comments: I urge the agency to choose alternative #3, as old-growth forests are so important for the ecosystem of our nation and represent our commitment to protecting the land we still have. Companies have controlled our publicly available resources for far too long, this would act as another natural beauty taken away from America's citizens. Please don't let these pillars of the American wild be sold off for profit.
