Comments: I am against the Emerald Lake Shelter Reconstruction Project in the Mount Timpanogos Wilderness, because it fails to fulfill the requirements and character of a Wilderness Area. Since it was constructed before the Wilderness Act was passed it should be dismantled taken out the same way it was brought in. Backpacking/camping equipment and clothing technology has progressed an unfathomable amount since the shelter was built.

If the shelter is rebuilt what is next, helicopters will be allowed to fly wealthy, soft, lazy people to and from the shelter? Guides?
