Comments: The Forest Service should make protecting the wild character of the Mount Timpanogos Wilderness a priority which means NO structures such as the Quonset hut! The Service already is aware that such structures are not needed for visitor use, stating that visitors must be prepared on their own to face "inherent risks of adverse weather conditions, isolation, physical hazards, and lack of rapid communications, and that search and rescue may not be as rapid as expected in an urban setting."

Proposing the use of helicopters and placing structures such as these are counter to the Wilderness Act.

The Forest Service must adopt an alternative that lets the Mount Timpanogos Wilderness be wild by allowing the metal remnants of the Quonset hut to fade with time, or by using wilderness-compatible means, such as non-motorized/non-mechanized tools, to remove it.
