Comments: Regarding the Emerald Lake Shelter, Mt Timpanogos Wilderness: Let's keep the Mt Timpanogos Wilderness wild, as much as possible. The hut is NOT part of wilderness, even if it might be historic. I am NOT in favor of restoring or rebuilding this shelter.

If people are hiking in the area, they need to prepare themselves with whatever is needful in a wilderness place. Let us NOT try to introduce "civilization". Let us NOT take machinery, cement, supplies, etc., by helicopter or motorized means, to try to make it more comfortable to be there. Emerald Lake is a beautiful, serene, peaceful part of nature - to be "discovered" over and over again as we mortals encounter nature and its wonders.
