First name: April

Last name: Woods

Organization: Animal Daycare & Boarding LLC

Title:

Comments: I love nature, not man made buildings that bring pollution & toxins to it. My understanding is that this hut, the structure is not needed, that people are told to come expecting to deal with nature and it's natural outcomes, bad weather etc. You made one mistake already, no need to bring in helicopters to repeat it. People come to see nature, not your man made structures, leave them in the city, leave nature alone. Please let Mount Timpanogos Wilderness be wild. Nature will fix your mistake in time, it will cover the hut with dirt and trees eventually. No more mistakes by humans. Nature is perfect, humans fail non stop.
