First name: Courtney

Last name: Muston

Organization:

Title:

Comments: STOP THE LOGGING! Trees are the Earth's lungs and we are purposefully cutting them down! For the sake of children's future STOP! Biodiversity loss, increase in fire frequency and severity, animal die offs, the list goes on and on. LISTEN TO THE PEOPLE NOT YOUR CORPORATE OVERLORDS. Have a backbone and stand up to BigAg and BigOil. Otherwise I hope you live with the shame of knowing you were actively killing Earth. No healthy planet, literally means we die too.
