Comments: We are part of nature and if we destroy our natural environment, we do so at the expense of our health, our environment, and that of ALL future generations.

Our lives are dependent on a healthy environment - especially an area where we can escape the noise of cities, planes, trains, trucks, cars, landscaping, and everything that prevents us from hearing the calm beauty of nature.

We MUST protect every mile of nature that we can, Protect Emerald Lake.

Sincerely,

Sarah Hughes
