Comments: When I visit Wilderness areas, I want to experience the wild. If I want to see buildings and hear obnoxious, irritating human-caused noise, such as helicopters and motorized equipment and tools, I can unfortunately just stay home for those experiences. I also care about the negative impact on wildlife of noise and the activity of building a new structure. I request that the Forest Service protect the wild character of the Mount Timpanogos Wilderness, rather than any structures such as the Quonset hut, which degrades the area and is not necessary to administer the Wilderness. Please allow the hut to degrade at its own pace, or remove it using non-motorized, non-mechanized tools.
