Title:

Comments: As a longtime regular recreational visitor to the Boundary Waters Canoe Area Wilderness - since 1971 - I strongly support the federal purchase of 80,000 acres of Minnesota state school trust lands and 3,200 acres of St. Louis County land, within the BWCAW.

These lands are part of the whole - most embedded deeply within the authorized Wilderness. They should be owned and managed as such.

I support use of Land and Water Conservation Fund monies to carry out this important and much-needed purchase.
