First name: Eric

Last name: West

Organization:

Title:

Comments: As you can tell from the opposition, these lands are now already in danger of being used to further development and extractive industries' profits.

The only way to protect any land is to purchase it, and even that has its limits. But connectivity is one of the most important aspects of saving the wilderness. Areas with edges create an attractive place for harmful vegetation to grow.

This deal will supply the school fund with actual funds, something that is missing right now.
