Comments: I have been so discouraged and disappointed to see our forest service now as enemies of the forest instead of care-takers of the forest. Cutting Old Growth forests is totally unnecessary and frankly, disgusts me. Once they are gone, they are gone forever. Maybe to you it is just cash growing as a tree, but to those of us that love the forest and visit to hike, take photos, bike, hunt and fish, it is a special place that cannot be replaced in our lifetimes. Leave old-growth alone.
