Title:

Comments: In an era where biodiversity loss and detrimental effects to the living organisms on this planet as a result of human industry and "development", it is socially irresponsible to not do everything possible to preserve/maintain wilderness spaces. Demonstrate that life on this planet is more important than monetary profits for corporations by moving forward with the federal purchase of the 80,000 acres of state school trust lands inside the BWCAW, and the 3,200 acres of St. Louis County land included in the land purchase package.
