Comments: My family and I are proud supporters of our natural forests and wildlife. We maintain fishing licenses and financially support our State's (NC) Wildlife funds. I believe that we should interact with our natural worlds. I am not opposed to all logging or land use. However, once these old growth forests are altered, it would take thousands of years to get back to the present state. Please consider the opportunity for future generations to experience these forests as they currently stand and allow them to remain subject to only natural change.
