First name: Thomas

Last name: Mahon

Organization: Mahon Timber Consulting

Title: Owner

Comments: Forest Sevice,

You need educated. You have to be educated because you need to cut some old growth timber in the west. Especially in P pine, DF , Engleman Spruce and Lodge Pole Pine. You are not obeying the 76 Timber act. Neither is the Sec of Ag. I support generational forestry and a initial strike concerning wild fire. I do not support an old growth ammendment until I am invited to a Sec of Ag meeting where I can educate you on why the west has no more mills left and how to best design a true generational approach to forest management. I look foreward to that invite.
