Comments: I am glad that you are taking steps to protect old growth forests. Thank you. I would be even more encouraged if you took a bit of a longer than view and included areas that don't yet meet the "old growth" criteria, but have the potential to do so within a few generations. There is a quote from President FDR that sums it all up "A nation that destroys it's soils destroys itself. Forests are the lungs of our land purifying the air and giving fresh strength to our people."
