First name: Don

Last name: ARNOSTI

Organization:

Title:

Comments: As a frequent visiter to the lands in question, I applaud the USFS and the Minnesota DNR for listening to many (most) citizens who wish these lands to be uniformly and rationally managed for wilderness, for those lands within the BWCAW boundaries, and for multiple purposes as directed by the Superior National Forest plan for those lands outside those boundaries. I strongly support this proposed purchase!

School kids can benefit from the deposit of funds in the School Trust account to help pay for their education AND they benefit from the consolidated management and protection of public lands in perpetuity. Thank you for proceeding with the proposed sale.
