Comments: All the aging equipment/infrastructure needs replaced/updated. The thinning projects for fire mitigation are a huge improvement. We have a hugely underutilized resource in this area and I am in favor of all the improvements. I ride mountain bike in this area in the summer-fall but have to ride on roads shared with trucks/cars for parts of it and would love to be all on trails with no motorized vehicles. Snowmaking would not only improve the skiing it adds to the snowpack for spring/summer melt.
