First name: Steven

Last name: Nack

Organization:

Title:

Comments: I am a fly fisherman, a hunter and a naturalist. I hold a degree in biology (among others) and I have a deep knowledge of ecology. I have read the U.S. Forest Service Draft Environmental Impact Statement, and I support Alternative 2. Stewardship is important in the management of all forests, old and new. Restoration is critically important to the health of all forests, which in turn benefits wildlife and waterway health.
