Title: President

Comments: It is imperative for our planet that you understand the necessity for mature and old growth trees. To ignore their part in our need to store CO2 is contrary to our future needs on our earth.

We need your firm leadership to achieve the best possible outcomes for our forests. We do NOT need the Timber Industry running the US Department of Forestry. Please stop clearcutting, and taking our our mature, and old growth trees.

Sue Craig representing Oregon Unitarian Universalist Voices for Justice. This is a statewide organization. Thank you for helping our interconnected web of life.
