Title:

Comments: Stop cutting old growth in Daniel Boone National Forest!

Keep inventory of old growth forests in a database accessible to the public.

Be forward thinking of forest management to ensure old growth for future generations!

What a gift old growth forests are[hellip]so many benefits to our planet, to our physical and emotional well being, to our children, grandchildren and great-grandchildren! Once the old growth trees are cut down, this precious gift is LOST!!!!!!! We must wake up and stop being greedy and short sighted. This is our time to do the right thing. I hope we have the wisdom and courage!
