Title:

Comments: I believe this project should be permitted to move ahead. The existing Primo chairlift, while unique, is at the end of its lifespan and a detriment to beginner users. An improved chair would increase the ability of all users to access the top of Compass Peak and ensure no mechanical issues forced a shutdown of access. It will also allow Sunlight to increase visitation and improve the customer experience. I believe the categorical exclusion is warranted, and the construction + remediation plan is solid.

Thank you,

Marcus Thackston
