Title:

Comments: I support a policy for our national forests that will:

1.End the logging of old-growth trees and in old-growth stands where fire is infrequent.

2.End the commercial exchange of old-growth trees. No old-growth trees should be sent to mills.

3.Establish protections for mature forests and trees to increase the amount of old growth for the future.

Protect our old growth forests for animals and people. Today and in the future. For carbon sequestration and for nature healing.
