Last name: STEVENSON

Organization:

Title:

Comments: We need our mature old growth forests intact and healthy as they are,

doing what they know to do best, giving us air to breathe,

protective shielding from fires and a habitat for our endangered species.

Be responsible, reasonable caretakers of our forests.

Set an example for others to follow and work together

with the Yaak Valley Forest Council.

Let our forests and the Black Ram area be a Climate and a Wildlife Refuge.
