First name: Frojon

Last name: Banwell

Organization:

Title:

Comments: We really need the US Forest Service to protect and defend old growth forests across the nation.

Vaguely waving your verbal flags and continuing to sell out Our old growth forests hidden behind fancy rhetoric should be set aside. Please, honor the citizens and not the corporate harvesters. And, while you're at it find the way to direct away from monoculture in forestry.

If the US Forest Service leaders cannot make this happen, it is time to promote new leadership.

Thank You,

Frojon Banwell
