Comments: Yes, I am in favor of the withdrawl. My family and I love Pactola Reservior and the Rapid Creek watershed area. We believe it should be protected from intrusion of mineral exploration and mining. Water is precious, and we can not take any risk in wasting it on mining, or the potential of pollution and wreaking havoc on our water sources. Please stand up for all of us in the Black Hills who love this area and don't want to see it destroyed with machine pollution, noise pollution, air pollution with their diesel rigs, and tearing apart this sacred place. Please confirm the withdrawl. Thank you.
