First name: Roger

Last name: Hubregtse

Organization:

Title:

Comments: I have been a resident since 1989. Having worked as a logger in the Black Hills, as a BNSF employee worked the Newcastle area, hunted actively throughout the Black Hills, and now as a grandparent I actively promote the Black Hills as an informed resident being an informal tour guide for our children, grandchildren and their friends and helping tourists in general who I engage with. Having and promoting clean water is paramount, especially as it flows through Rapid City where we increasingly are involved. Yes, I actively support the Forest Service's proposal to protect the Pactola area with a mineral withdrawal.
