Title:

Comments: I am a property owner in Calf Canyon and would like to express my desire for the Forest Service to rehabilitate the area. This includes but is not limited to protection from flash flooding from FS land upstream, reforestation where possible, and FS Road 263 repaired for immediate access to properties as well as long term access with stronger infrastructure.

I also would be greatly saddened if the recreation areas were "decommissioned" as I have grown up in the area and have many fond memories. It has been truly heartbreaking to see the effects of the fire, but I am invested in the community and the land. I would love to be able to hike the trails to Elk's Mountain, Johnson's Mesa, Beaver Creek, Hermit's Peak, and others again. I love to think of hiking these paths from my childhood and hope that future generations will be able to create their own special memories. Please work to rehabilitate the campgrounds and recreation sites so that our community can continue to deepen the relationship we have with the land, heal, and move forward together.
