Title:

Comments: I am commenting on the Pactola Reservoir - Rapid Creek Watershed Withdrawal #63876.

I 100% support the protection of this area (actually ALL areas) from mining. Yes, some think that transitioning to renewal energy requires trashing whatever ecozones may hold the requisite materials. I disagree. I have chosen to live without heat and air conditioning, a car, and air travel.

I am 69 years old and very healthy because i walk nearly everywhere. Therefore i stand with the indigenous people who object to their lands being overrun by extraction, as i would object to my own property being claimed for others' gain and the ruination of our country's natural capital, which sustains our very lives. Thank you for your consideration.
