First name: Queeta
Last name: Deblanca
Organization:
Title:
Comments: My name is Queeta and I am in support of withdrawal of the mining of minerals from the Pactola Reservoir. Extractionism such as the activities taking place on Native Lands is a complete disregard for this plant and Engle act of its care. Honor the earth, the tribal treaty rights, fishing rights and overall safe and clean accessto waters for the tribes and for the sacred upkeep of this piece of land that represents so much life for the people who take care of it.
