Title:

Comments: I do hereby oppose Mining of any sort at Pactola Reservoir and Rapid Creek Watershed. The Watershed is a vitally important central part of a precious ecosystem which needs to be wholly protected. The adverse effects of Mining will clearly damage the beauty and nature of the area and will undoubtedly create a irreversible wound to the Pactola Reservoir and Rapid Creek Watershed . Water is the most precious resource to all lifeforms and we as humans should be wise enough to know to protect it, as we are Water. Please protect Pactola Reservoir and Rapid Creek Watershed and all its lifeforms.
