

Data Submitted (UTC 11): 10/13/2024 5:57:30 PM

First name: Sr. Roberta

Last name: Miller

Organization:

Title:

Comments: Please do forbid/stop any mining extractions near or by or around the Pactola Reservoir. Fresh water is limited in supply and with climate changes, it will be even less. What about respect for Native American rights-- why are these being disregarded? Water-fresh water--is essential for life on Earth. Please respect this basic fact of /for life .
