Comments: i do not want ge trees in any public site. i do not want this logging that is going on voraciously at our public sites. the rapin of our public lands is happenin from aencies like the us bureau of land mgt. usdept ag, usfs, etc. they let their pals in industry just take over. the public is not being heard by any of these agencies which have been captured by rich corporations and individuals. the general public needs to be listened to. we know we need gods work to be protected from violence by govt. our govt is out of control and we need some criminal indictments to happen.
