Title:

Comments: Forest Service,

I wish to add comments on this plan.

My wife and I frequent the Grasslands. On several of our forays there we noticed damage being done to the sandy soil by ATV's and other motorized vehicles. We stopped and talked to some of them and they were unaware that their vehicles were not allowed. One time the group said the business where they purchased their vehicles told them where they could ride, including the grasslands. They even provided maps. Another time we got license numbers and had the Forest Service send out notices of their violations. These vehicles not only cause damage, they also are very loud and disturb the serenity we seek when we go there.
