Comments: I support the withdrawal of mining around the Pactola Reservoir, and would support future mining bans. Our family and friends enjoy the lake for recreational purposes, and we want to continue to enjoy all that it has to offer. Pactola is important place to the surrounding area and community. Water supply is precious in our region, and we must do all we can to protect the water and the land surrounding it. The Black Hills is a beautiful area and must remain preserved and unspoiled.
