Comments: I have been lucky enough to visit the Black Hills multiple times. I'm in awe of how beautiful the land is. Do not allow an expansion of mining or corporate interests into this landscape. We are currently battling mining expansion in my part of New Mexico. The headwaters support so much life in both places. We cannot replace or unpollute them. I fully support a complete and total withdrawal of corporate attacks on these waters via their business "interests", which come at a complete and total cost to the humans and animals in this watershed.
