Comments: I am writing to voice my support for this withdrawal. The withdrawal of mining companies and cessation of extractive practices is a vital step towards the improved health of the land and the communities whom call this area home. This land is sacred to the Lakota people, who have protected this pristine natural space for generations. Also vital is the protection of the clean water which flows through this watershed. Thirdly, this natural space is important for recreation, which brings revenue to the community and improves citizen's lives. Once again, I support this withdrawal and ask that the Forest Service expedite the withdrawal proposal to the Secretary of the Department of the Interior.
