Comments: I support this Withdrawal.I support this Withdrawal.and again I support this Withdrawal.

We are intelligent people and respect others as we want to be respected. Sacred place, pristine land needs to stay that way for ever. Clean water cannot be replaced or made it comes from NATURE.

Nobody wants to come to the site that has been destroyed by industrial action to get something that it temporarily and replaceable. Let's keep the land shared by the Natives with everybody for ever.

The GOD we trust will reward us.

BLESSINGS TO ALL
