Title:
Comments: I would like to support this application to withdraw these lands in order to preserve the natural resources of the area as well as the cultural values of the Native American people who hold this to be sacred lands.

It would also protect the water supplies of nearby cities. Also it preserves land as wilderness or wild spaces that can be enjoyed by people who appreciate access to natural spaces.

Please expedite this proposal so that it can go into effect as soon as possible.

Thank you so much, Keith Ela, Fort Collins Colorado
