Title:

Comments: I support the withdrawal. It seems like every time I turn around, there is another planned assault on our planet in the name of toxic profit. Profit for someone who has no inkling of what the consequences really mean to others. Clean water is, or SHOULD BE a birthright, not a bargaining chip. It sickens me when the corporations say it will be safe - that is utter nonsense as we all know.

Please expedite this withdrawal proposal to the Secretary of the Department of the Interior.

Keep clean water unspoiled, for god sake!
