Comments: Hello,

I support this withdrawal application, and hope you can move it quickly to the Secretary of the Interior for approval.

I believe the highest values of this multiple use area are best served by its withdrawal from sale, mining and leasing for geothermal. To the extent valid rights for these potentially withdrawn activities already exist, I hope the Department of the Interior will seriously consider efforts at fairly retiring them.

In my opinion, livestock grazing and other public-use activities such as fishing, hunting, hiking, camping, and others, represent values incompatible with mining and energy development. Additionally, a measure of deference should be given to the sacred nature of this area to indigenous tribes.

Thank you.
