Last name: Camp

Organization:

Title:

Comments: I wholeheartedly support the withdrawal! It is so vital that we treat the earth with respect. We rely on the earth for life and the earth relies on us to treat it well. We need clean water. We need to respect the sacred lands of the Indigenous people who have stewarded the land for millennia. We are a country of people largely from overseas, we are guests, and we ought to keep our hands out of the earth's crust, lest we wreak havoc on ourselves.
