Comments: To whom it may concern:

Enough is enough. No more environmental degradation of native lands. I support the withdrawal of mining companies from the Black Hills. Please expedite this proposal to the Secretary of the Department of Interior.

We do not have the time nor the planetary resources to continue down the path of mining. We have to care for our water and protect the remaining sacred lands. What's more, with so many treaties broken by the U.S. Government, the very last place, if any, where these industrial activities should happen is on sacred sites for the Indigenous People's of N. America. Please don't sacrifice morality for money.
